

Maintenance Services

Mission Statement

To exceed our client's expectations and objectives by being the first choice service provider and solutions specialist for rail depot systems through the continuous availability of our support, range of services, technical excellence, innovation and efficient deployment of resources.

Company Overview

Emeg Maintenance Division (EMD) has more than 20 years' experience in the provision of rail depot maintenance and specialises in post-install aftercare, uptime and lifecycle replacement of depot systems, providing a comprehensive range and the very highest levels of depot maintenance services. We're a 'onestop-shop' for depot operators, providing services ranging from basic plant failure attendance cover to planned preventative and condition based maintenance.

Depot systems are vital to the effective operation of UK railways. Carriage Wash Machines, CET and fuelling systems are all vital to the timely turnaround of rolling stock. High-usage uptime of these systems, often in demanding conditions, is fundamental to the operation of the depot. Planned 'preventative maintenance' regimes are therefore an essential and mitigating provision, as is the ability to respond to plant failures when called upon, with the relevant skills, knowledge and service history.

Employing a consistent workforce of skilled problem-solvers, from pipe fitters, electricians and gas installers to heating & ventilation engineers, supported by our experienced project management teams, Emeg Maintenance Division focuses on continuous improvement across the business to provide its clients with a best-in-class depot maintenance service provision.

Products and Solutions

Rail depot maintenance solutions

Our solutions encapsulate the planned and reactive maintenance of the majority of depot shed equipment and plant items used to service rolling stock. Our range of services are tailored to meet the requirements of our clients in the following areas;

- ◆ Standard or bespoke planned maintenance.
- ◆ 24/7 reactive maintenance.
- ◆ Warranty and aftercare on Emeg installed products.
- ◆ Lifecycle management, including overhaul & replacement of depot equipment.
- ◆ Site surveys, including asset condition and lifecycle assessments.
- ◆ Servicing and insurance inspections.

Emeg Maintenance Division has the ability to maintain any depot plant and equipment – we aim to provide a one-stop solution. Our range of services for depot plant and equipment maintenance covers:

- ◆ Carriage wash & underframe cleaning machines
- ◆ CET systems
- ◆ Depot protection systems
- ◆ Fuelling systems
- ◆ Oil, lube & gas storage and distribution
- ◆ Coolant & anti-freeze
- ◆ Heating & ventilation
- ◆ Boosted cold water systems
- ◆ Drainage & effluent
- ◆ Leak detection
- ◆ Electrical jacks
- ◆ Compressed air (pipework & compressors)
- ◆ Gantry cranes
- ◆ AdBlue
- ◆ Shore supplies
- ◆ Shunting vehicles
- ◆ Interceptors
- ◆ Air & sand dispensing systems
- ◆ Security & CCTV systems
- ◆ Yard & internal lighting
- ◆ Industrial doors

Our periodic planned maintenance visits and achievement of industry-leading service levels will result in full accountability and honest appraisals, greater levels of data to mitigate plant failures and improved lifecycle expectancy and equipment renewal dates, which allows us to serve depot operators better and promote solutions in advance of problems occurring.
